

PITCH PERFECT

Terraplas plc pioneered Turf Protection technology for quality stadium turf in 1990, with significant input from the engineering and agronomy departments of Wembley Stadium in London, and continues to lead the industry through innovation, cutting-edge design, production and quality materials.

Terraplas delivers the ultimate protection from the devastating effects of thousands of fans walking, standing, jumping and dancing on top of the covered playing surface. This presents venues with a real opportunity to be multi-use and maximise their revenue streams by hosting a wide range of events within a short time-frame, all while retaining a top quality playing surface.

PRESTIGIOUS CLIENT LIST

Terraplas products have been purchased by 95% of the multi-use national stadiums around the world and the company was the 'Sole Supplier of Turf Protection systems' to FIFA World Cup 2010 stadia in South Africa and UEFA EURO 2012 venues in Ukraine. They also provided specialist flooring solutions to the London 2012 Olympics.

Terraplas' clients span the globe and include Wembley Stadium (UK), Sultan Qaboos Stadium (Oman), Cairo National Stadium (Egypt), Commonwealth Stadium (Malaysia); Parken Stadium (Denmark), FNB Stadium Johannesburg (South Africa), National Stadium (Namibia), National Stadium (Lesotho), NSC Olimpiyskiy (Ukraine), ANZ Stadium (Australia), Dinamo Arena (Georgia), Aviva Stadium (Ireland), Dubai Sports City (UAE), Estadio Nacional (Chile) and Riverplate Stadium (Argentina), to name but a few.

LIMITLESS USES

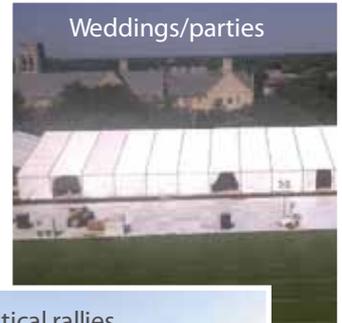

With a Terraplas Turf Protection system, stadiums can be truly multifunctional. From high-profile concerts and political rallies to boxing matches, ice hockey games, corporate meetings, exhibitions, additional parking areas, graduations, car/boat/caravan shows, gala dinners, monster trucks and even presidential inaugurations, the range of sporting and non-sporting events is limited only by the imagination. ■

Tradeshows

Wrestling/boxing matches

Weddings/parties

Presidential inaugurations

Product launches

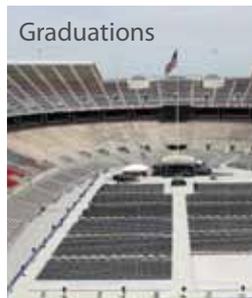

Political rallies

Milestone anniversary celebrations

Hospitality areas

Graduations

Corporate meetings/dinners

Concession areas

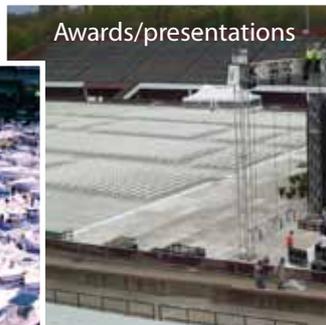

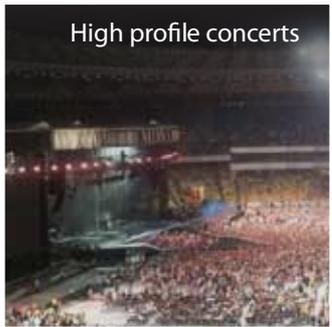

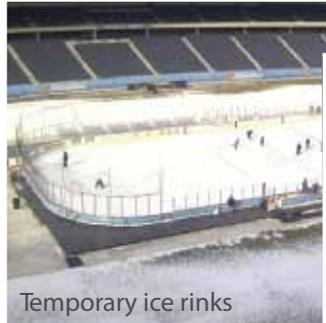

Car/caravan shows

Terraplas has an unrivalled 22-year track record in sales to stadiums and arenas, with in excess of one million square metres (10 million square feet) sold worldwide to date. It is the only range of products that allows continuous photosynthesis, ensuring optimal turf condition and comes with an industry-leading 30-year UV degradation guarantee.

Facility managers and event directors have a common goal in terms of Turf Protection and that is to source a quality solution that allows multi-use while fully protecting their most valuable asset; their turf, whether natural or artificial. Terraplas offers a number of solutions that not only ensure this objective but also guarantee the following proven benefits:

- Revenue generation
- Operational cost-saving
- Demonstrated longevity
- Performance in any climate, for any event, in any location
- Optimal turf care
- State-of-the-art technology
- Eco-friendly
