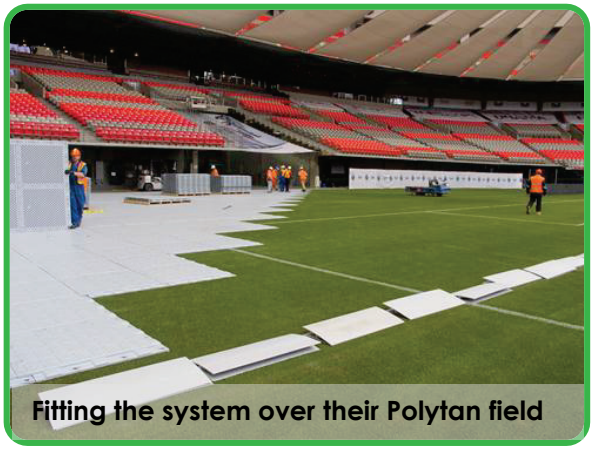
BC Place in Vancouver, Canada

The iconic BC Place Multi-Purpose Stadium has used Terraplas products for over 10 years, recognising the benefits of choosing the very best quality, which really does has an extensive lifespan, meaning that ultimately the overall cost is substantially lower than it at first appears.

BC Place, home to the Vancouver Whitecaps FC (MLS), and BC Lions (Canadian Football League), has a 'Polytan' artificial turf playing surface, which gets extensive use throughout the year.

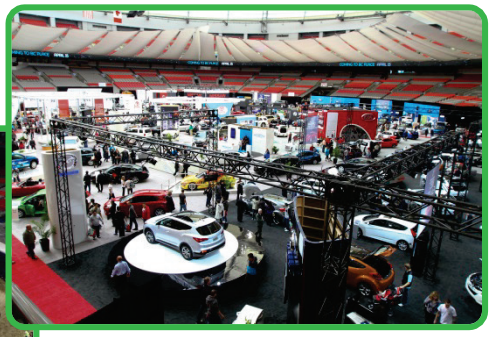
As a truly Multi-Purpose Stadium the revenue it generates from non-field events is very considerable!!

At the end of each playing season, BC Place fit their cover system. This also allows for additional retractable seating to be utilised for appropriate events.



Fitting the system over their Polytan field

Moveable seats roll out on top of the cover system



The types of events BC Place can host during what could be a "dead" time outside of the football season, is endless:

- *Car Shows;*
- *boatshows;*
- *caravan shows;*
  Fairs;
  Exhibitions;
- *Tradeshows ……*

Once the off-season comes to an end, they simply clean & lift the system, go through a standard maintenance program and their playing field is ready for kick off!

As a truly Multi-Purpose Stadium the revenue BC Place generates from non-field events is very considerable!!
Only possible with a quality system from Terraplas!
